The MDC Difference

How MDC is Different

BUILT FOR SUCCESS THROUGH THE HOUSING CYCLE

- ✓ Strong balance sheet
- ✓ 2-3 years land supply
- ✓ Limited amount of speculative inventory
- ✓ Industry leading dividend

Why It Matters

We're focused on homebuilding, not land speculation, which positions us to withstand, and ultimately benefit from, downturns.

Allows us to reward shareholders with an industry leading dividend, which has remained consistent / increased each year since 1994.

DIVERSE PRODUCT MIX WITH A CONTINUED FOCUS ON THE AFFORDABLE SEGMENT

- ✓ Appeal to a number of buyer demographics
- ✓ Benefitting from the millennial homebuying wave
- ✓ Moving down in price without sacrificing quality or design elements

Allows us to have faster cycle times, increase our absorption pace and improve our gross margin through better pricing power.

Attracts both new homebuyers and move down buyers focused on affordability.

Unique products help differentiate us from peers.

BUILD TO ORDER MODEL

- ✓ Allows for personalization
- ✓ Differentiates us in the market as more builders move to a spec strategy
- ✓ "Build-to-order" strategy limits risk vs. speculative building of unsold homes by peer group

Allows us to manage the customer experience from end-to-end.

Personalization leads to higher margin sales. We've proven we can generate order rates above peer group average without the use of specs.

Model is consistent with our risk conscious operating philosophy.

Appendix – Reconciliation of Non-GAAP Financial Measures

2022 INVESTOR PRESENTATION

Reconciliation of Non-GAAP Financial Measures

“Net debt” and “net capital” are non-GAAP financial measures, and should not be considered in isolation or as an alternative to performance measures prescribed by GAAP. The table below reconciles “net debt” and “net capital” to debt and capital as calculated based on GAAP. We believe the ratio of net debt to net capital, also known as “net debt-to-capital” is meaningful to investors as management uses the ratio in understanding the leverage employed in our operations and as an indicator of our ability to obtain external financing. Furthermore, we utilize this information for comparative purposes within our industry.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG) HIGHLIGHTS

Environmental Initiatives

- Every Richmond American home comes standard with energy efficient features that help cut down on energy usage.
- In 2021, our average HERS rating improved by 7% to 51, 79 percent more energy efficient than a typical resale home.
- Goal of decreasing our average HERS rating to 50 or less by 2025. Longer term, we are evaluating the implementation of a net-zero ready home strategy.
- Expanded our solar offerings, previously limited to California and Colorado, to all our regions.

Social Initiatives

- Committed to fostering and promoting a diverse and inclusive work environment.
- Continued to promote a gender and ethnically diverse employee base; current employee base comprises 28% non-white employees and 45% female employees; 42% of employees in a position of manager and above are female.
- Competitive benefits package including medical coverage, paid time off and 401(k) match.
- The Company has donated nearly \$13 million to the MDC/Richmond American Homes Foundation in the last five years.
